Definition of OER and Policy Context

- OER are teaching, learning, and research materials that are freely available in the public domain or released under an open license, allowing their free use, adaptation, and redistribution.
- Policymakers at various levels see OER as a strategy to improve educational access, reduce costs, and support innovative teaching practices.

Types of Incentives

1. Financial Support
2. Policy Mandates
3. Recognition and Rewards
4. Training and Capacity Building
5. Technological Support

Conclusion and

- Governmental and institutional incentives in OER policy frameworks are **vital** for promoting their use and sustainability.
- Range from funding, mandates to training & technology support

Future Directions

- Embedding OER within comprehensive digital education strategies
- Leveraging technology like AI for content creation
- Promoting international collaboration to share best practices and enhance scalability.

THANK YOU
